

DELIVER THE  
STANDARD TO  
YOUR ENGINEERING  
COMMUNITY

## ASME Codes & Standards for Academia

Give your engineering community, particularly students, the tools needed to succeed in today's increasingly competitive employment environment.

Equip your users with an understanding of the use of Codes and Standards in different contexts, which will give them a greater and more authentic sense of the world of practice.

Did you know that almost 50 percent of early career engineers lack standards knowledge?\*

“The greatest weaknesses noted by employers of current mechanical engineering graduates, as well as by the early career engineers themselves, were a lack of practical experience in how devices are made or work, **lack of familiarity with codes and standards**, and a lack of a systems perspective.”\*

### ASME: Setting the Standard

The **American Society of Mechanical Engineers (ASME) Standards Collection** is available to all academic libraries through a new flexible subscription option. This enables access to the most up-to-date collection of Codes and Standards produced by ASME, one of the oldest and most highly regarded international standards developing organizations. Codes and Standards are associated with the art, science, and practice of mechanical engineering, starting in 1914 with the first edition of its legendary Boiler and Pressure Vessel Code.

### What Are Standards?

A set of technical definitions, instructions, rules, guidelines, or characteristics set forth to provide consistent and comparable results.

### ASME's Standards Collection

### Select Your Standards Package

1. BPVC Boiler and Pressure Vessel Code Complete Set
2. Non-Boiler and Pressure Vessel Code Complete Set
3. Complete ASME Standards Collection

### Raise Your Standards

- Instant access to a rich and practical library of Codes and Standards for your students, faculty, and researchers
- Set Collection pricing is more cost effective than purchasing individual volumes
- Options include online, print or online plus print
- Unlimited concurrent user access
- Monthly reports to monitor content usage
